RDNS Nursing Centres

The next stage of your care...

RDNS is committed to providing the best health practices for all your health care needs.

We pride ourselves on our home nursing services and expertise, and can now provide you with the same care in one of our Nursing Centres.

If you are independently mobile, have access to transport and you are able to visit your GP or other Health provider, then we encourage you to continue your care with us in one of our Nursing Centres.

The benefits of attending an RDNS Nursing Centre are:

- Our specialised nurses are readily available to see you.
- You can book an appointment time that suits you and means less waiting time.
- We will endeavour to schedule the same nurse to monitor your progress which will provide you with familiar and consistent care.
- Travelling to the clinic can be of benefit to your rehabilitation and assist your healing process.
- Booking an appointment allows you to plan your day.

Your health and wellness is our focus. Visit us today at a Centre near you.
